

Sustainable Development

The company will consider environmental, social, economic and long term issues when making business decisions.

Environmental Standards

The company will comply with environmental regulation, and if possible exceed applicable regulations.

Performance and Monitoring

Environmental performance will be monitored continuously and environmental review statements produced (with the aim to make them publicly available)

Heap & Partners is Committed to Continual Environmental Improvements By:

- Establishing waste minimisation targets and reducing waste to landfill.
- Introducing efficient use of energy.
- Improving the efficiency of chemical and raw material use.
- Reducing packaging use and packaging waste.
- Minimising environmental incidents, complaints and accept responsibility for them.
- Raise employee awareness of the environmental issues in Heap & Partners.
- Raise community awareness of environmental issues of the plant.
